
Responsible Use: Forest Biotechnology Guidelines - Stakeholder Meeting 1: Framing the Initiative -

This meeting will be held on April 3rd in Raleigh, NC to frame the Responsible Use: Forest Biotechnology Guidelines initiative. These guidelines will help determine what uses of forest biotechnology that are responsible, and those that are not. There are no such stewardship guidelines in existence today for the use of genetically engineered trees post deregulation.

To make these guidelines effective, we need a broad set of stakeholders, and that includes you. Framing the initiative will benefit most from multiple perspectives from multiple sectors. This meeting is by invitation only.

We have reserved a block of hotel rooms for your convenience and have shuttle service to the North Carolina Biotechnology Center where we will be holding the meeting from 8:30 - 4:00 on April 3rd.

Travel and hotel Information:

Nearest airport: Raleigh Durham (RDU)
Shuttle service to the meeting: Provided
Hotel: Holiday Inn Express Hotel & Suites RTP
4912 South Miami Blvd.
Durham, NC 27703
Phone: 919-474-9800
Fax: 919-474-9803
Group Code: IFB
Rate: \$119.00 per night

We are dedicated to a transparent, multistakeholder approach in developing these guidelines. The information above and other material pertaining to this initiative will be made available at: www.responsibleuse.org

These guidelines will be critical for our future forests. Thank you for your time and attention to this important initiative.
-Adam
